Spring Shrub & Tree Sale
pre-order today

ALLEGAN CONSERVATION DISTRICT

Conifers:

Balsam Fir - Quebec (*Abies balsamea*)

Mature height: 60 to 70 feet

Mature width: 20 to 25 feet

Light exposure: full or partial sunlight

Soil preference: moist, but well-drained

Growth rate: slow (less than 12 inches per year)

Wildlife attraction: small mammals & birds

Seedling size & age: 6-12" & Plug +1

Canaan Fir (*Abies intermedia*)

Mature height: 40 to 50 feet

Mature width: 20 to 25 feet

Light exposure: full sun & partial shade

Soil preference: well-drained, acidic soil

Growth rate: 1 to 2 feet per year

Wildlife attraction: red squirrels & birds

Seedling size & age: 8-14" & Plug +1

Norway Spruce (*Picea abies*)

Mature height: 40 to 60 feet tall

Mature width: 25' to 30' wide

Light exposure: full sun

Soil preference: moist but well-drained, slightly acidic soil

Growth rate: 2 to 3 feet per year

Wildlife attraction: owls & hawks

Seedling size & age: 8-14" & 2-1

White Pine (*Pinus strobus*)

Mature height: 80 to 100 feet

Mature width: 20 to 40 feet

Light exposure: full sun

Soil preference: well-drained, sandy soils with a moderate acidity

Growth rate: 2 to 3 feet per year

Wildlife attraction: songbirds & small mammals

Seedling size & age: 6-12" & 2-1

White Spruce (*Picea glauca*)

Mature height: 40 to 60 feet

Mature width: 25 to 30 feet

Light exposure: prefers full sun but tolerates some shade

Soil preference: well-drained, moist fertile and can tolerate a considerable range in soil pH

Growth rate: 12 to 15 inches per year

Wildlife attraction: valuable nesting plant for many bird species

Seedling size & age: 8-14" & 2-1

Spring Shrub & Tree Sale
pre-order today

ALLEGAN CONSERVATION DISTRICT

Tree & Shrubs:

Allegheny Serviceberry (*Amelanchier laevis*)

Mature height: 30 to 40 feet
Mature width: 15 to 20 feet
Light exposure: full sun to partial shade
Soil preference: moist, well-drained
Growth rate: fairly quickly
Wildlife attraction: insects, birds, & small mammals
Seedling size & age: 12-18" & 1-0

Ninebark (*Physocarpus*)

Mature height: 5 to 10 feet
Mature width: 6 to 8 feet
Light exposure: full sun to light shade
Soil preference: moderately moist, well-draining soil with a pH that is neutral to slightly acidic
Growth rate: 2 feet or more per year
Wildlife attraction: honey bees, native bees, & butterflies
Seedling size & age: 6-12" & 2-0

Paw Paw (*Asimina*)

Mature height: up to 25 feet
Mature width: 15 to 20 feet
Light exposure: performs best on sites with full-sun exposure
**seedlings, will not survive under full sun conditions- young shoot sensitive to sunlight*
Soil preference: slightly acid, deep, fertile, and well-drained
Growth rate: 1 to 2 feet per year
Wildlife attraction: Opossums, foxes, squirrels, raccoons, & birds
**needs some protection from wind*
Seedling size & age: 6-12" & 2-0

Red Maple (*Acer rubrum*)

Mature height: 60 to 90 feet
Mature width: 30 feet
Light exposure: full sun to part shade
Soil preference: well-drained, sandy, loamy acidic soil
Growth rate: 12 to 18 inches a year
Wildlife attraction: squirrels & chipmunks
Seedling size & age: 6-12" & 2-0

Tulip Poplar

(*Liriodendron tulipifera*)

Mature height: 70 feet
Mature width: 40 feet
Light exposure: full sun or partial sun
Soil preference: moderately moist, deep, well drained, loose textured soils
Growth rate: 3 to 5 feet per year
Wildlife attraction: honey bees, native bees, & hummingbirds
Seedling size & age: 12-18" & 1-0

Raspberry Blackcap (*Rubus occidentalis*)

Mature height: 3 to 6 feet
Mature width: 6 to 12 feet wide
Light exposure: full sun to part shade
Soil preference: slightly acidic, moist but well-drained soils
Growth rate: 3 to 6 feet (takes two years for each cane to produce fruit)
Wildlife attraction: small mammals, birds, & pollinators
Seedling size & age: 12-18" & 1-0
